

WPC 80

Code 17615h
v.1.06

Product description:

WPC-80, food grade, is derived from fresh sweet dairy whey, that is further processed by ultra-filtration in order to ensure optimal functionality. The process, used to make this WPC, guarantees to keep the nutritional quality at its peak, and assuring complete solubility of the protein.
Information on amino acid and mineral content is available.

The product is a free-flowing powder, non-caking with a cream/light yellow colour. Flavor is bland and the odor is neutral.

Analysis:

Chemical and physical:

Proteins (dry basis)		min. 80,05 %
Ash		max. 5,0 %
Free water		max. 5,0 %
Lactose	(typical value)	3.0 – 5.0 %
Fat		max. 6,0 %

Micro biology:

Standard plate count	< 10.000 /gr
Yeast and moulds	< 100 /gr
Salmonella	negative /25 gr

Nutritional details:

Calories	(per 100 gr)	380 – 400
Cholesterol	(mg/100 gr)	160 – 170

Uses:

Supplementary ingredient for food products, as source of high quality protein, for example in infant formula, geriatric foods and as binder of fats and water in meat and mayonnaise.

Packing:

Multiply polylined paper bags of 20 kilos net

Storage:

Preferably store in its original packing, in a dry and cool warehouse, protected from light and humidity.
Rotation of stock is recommended.

Safety data:

No health hazards should exist, subject to normal standards of personal hygiene. No special instructions for first aid and no special precautions are necessary. Detailed information available upon request.

Note:

Preparation and publication of this information has been done with all possible care. It is advised, however, that users convince themselves of the convenience to incorporate this product in their manufacturing process.

This data is for information purposes only and may change without notice.
